intellitech SOLUTIONS

CAPABILITY STATEMENT

UEI: **SBMHH5RBAGU5** CAGE: **254X9**

Small Business · Firm-Fixed-Price & T&M

Custom software, delivered on time. Engineers who speak business first.

Nearly 30 years of delivery

COMPANY OVERVIEW

Intellitech Solutions designs, builds and supports custom software for organizations whose mission-critical systems have outgrown whoever maintains them. For nearly 30 years our engineers have delivered enterprise applications, system integrations and applied AI for Fortune 500 companies and growing organizations, scoped to a fixed price and a fixed date.

CORE COMPETENCIES

Custom application development. Web, mobile and enterprise systems in Java/Spring Boot, TypeScript and React.

AI integration & automation. Applied AI built into real workflows; document and data automation.

Cloud engineering & DevOps. AWS, containers and Kubernetes (EKS), infrastructure as code.

Technology & AI-readiness assessments. Plain-language findings and a prioritized roadmap.

Systems & data integration. APIs, EDI/SFTP, messaging and connecting the systems you already own.

Legacy modernization. Framework upgrades, platform migrations and re-platforming aging code.

Internal tools & portals. Scheduling, dispatch, workflow, reporting and self-service portals.

Hosting, support & sustainment. Monitoring, maintenance, security patching and backups.

DIFFERENTIATORS

1. **On time, or it's on us.** Fixed price and delivery date in writing. Past the agreed date, on anything within our control, we absorb the hours.
2. **Engineers who speak business first.** We learn the mission and the workflow before the technology, so we build the right thing.
3. **A 30-year pattern library.** Decades of seeing how enterprise systems fail make our estimates accurate and our designs durable.
4. **Insanely easy to work with.** One accountable point of contact and plain-language weekly status through our IntelliPath delivery framework.

PAST PERFORMANCE

NBCUniversal · Enterprise scheduling and media management platform: cloud-native Java microservices on AWS EKS, infrastructure as code, React front end. Annual fixed-fee program.

uRoute · Transportation management SaaS for 10+ years: load-building algorithms, carrier EDI/SFTP integrations, real-time messaging and cloud hosting.

GE Research · Paraxial · Accumetra · AI integration for lung cancer screening that reads CT scans and gives radiologists reliable results; work published in medical journals.

Team Percepto · Content distribution platform for a network of 100+ digital advertising screens.

> *"Consistency in excellence is what comes to mind with Intellitech."*
>
> Director of Scheduling & Media Management, NBCUniversal
